PROFESSIONAL SUMMARY

Computer Science student at UET Lahore (CGPA 3.66/4.00) with hands-on experience building desktop applications, relational databases, embedded systems, and games. Proficient in C++, C#, SQL, WinForms, and MySQL, with growing experience in Unity, data structures, and software engineering. Seeking an internship where I can contribute to production-quality software while learning from experienced engineers.

EDUCATION

University of Engineering & Technology (UET) Lahore, BS Computer Science | CGPA: 3.66/4.00 **SKILLS**

Languages: C++, C#, SQL, HTML, CSS, JavaScript (Learning)

Frameworks/Tech: WinForms, MySQL, Godot, Unity (Learning)

Tools: Git, GitHub, Visual Studio, VS Code, MySQL Workbench, Notion

Core: OOP, CRUD, Database Design, Data Structures, Algorithms, File Handling

PROJECTS

- Adaptive Fitness & Nutrition Management System (C#, WinForms, MySQL): Authentication, CRUD operations, normalized relational database, desktop UI.
- OBE Evaluation System (C#, WinForms, MySQL): Student/course/CLO management with optimized SQL-backed desktop application.
- Gym Management System (C++) and C# Winforms: Role-based authentication, member management, persistent file storage.
- Game Development: Fighter Jet (WinForms), Ricochet, and Level One (Godot), implementing collision detection, gameplay systems, and object-oriented architecture.
- Pakistan Game Jam 2026 - Winner: Created 404: Dino Not Found, a browser-based Unity game under the DINOSAURS theme and NO ANIMATIONS constraint.
